"I often think about life, my purpose in life, the meaning of life ...

When I made this song I wanted to open your mind with a raw flavour that fills you with energy and adrenaline and hopefully bring us closer to some answers."

- LINUS BEATSKIP

The song EXISTENCE is permeated by ponderings about purpose in life; why are we here, what is life?

Existential questions like these have plagued the artist LINUSBEATSKIP throughout his life and are recurring themes in many of his songs.

The acid sounds, driving beat and raw flavour in EXISTENCE fills you with energy and adrenaline. The song has hypnotic and granular soundscapes full of interesting textures.
